### SUMMARY

---

Recently graduated Front-End Developer with an intensive certification in front-end web development and advanced education in project management, information systems security, information technology, and software systems engineering. More than 5 years of experience in providing excellent customer service. Completed a project-based 6-mo certificate program in front-end web development, gaining skills in navigating and creating functions in the DOM, developing JavaScript Data Models, and Object-Oriented Programming.

### EDUCATION

---

#### Associate Front-End Web Development Certificate

Kenzie Academy from Southern New Hampshire University

Graduation Date: July 2022

- Gained proficiency in using HTML, CSS, and JavaScript to build innovative web applications.
- Learned best coding practices to complete team-based projects in a deadline-driven environment.

#### Master of Science in Project Management with a concentration in Information Systems Security

Colorado Technical University

Graduation Date: August 2021

- Conducted sophisticated research security analysis on Linux (RHEL/CentOS) as Sysadmin for a project.
- Created resourceful Networking and Troubleshooting (TCP/IP, DNS, traceroute, and dig).
- Implemented intuitive Apache Hadoop ecosystem on gigabytes of data for a team-based project.

#### Bachelor of Science in Information Technology Specialization Software Systems Engineering

Colorado Technical University

Graduation Date: July 2020

- Built extensive relational database systems to configure TCP/IP, DNS, and DHCP protocols for firewalls.
- Developed versatile Java programs to calculate estimates on product cost and labor.
- Collaborated on programming a Java app for Big Data in quantitative and qualitative analysis.

### SKILLS

---

**Languages:** HTML, CSS, JavaScript, Git, Zoom, GitHub, Slack, Node, React, Google Docs, Microsoft Word, Python, Terminal, SQL, WordPress

**Areas of Knowledge:** Front-end Web Development, Data Structures, Troubleshooting, Website Design, Test Writing/ QA Testing, Debugging, Database / Information Management, Network Security

### RELEVANT EXPERIENCE

---

**ACME Website Template Project** | Project Manager | Colorado Technical University

June 2018

HTML | CSS | JavaScript | <https://chrisdev22.github.io/ACME/>

- Independently designed and developed a website template from scratch over the course of 2 weeks to explore different types of frameworks and layouts.
- Fully developed the front-end of a website by integrating different libraries from JavaScript and adding features, such as buttons, text boxes, and forms, to create an appealing website layout.
- Administered ideal layout to enable user-friendly navigation across multiple pages in one single platform.

**Crusaders Responsive Design Project** | Team Lead | Colorado Technical University

Aug 2018

HTML | CSS | JavaScript | Bootstrap | Popper.js | Font Awesome | <https://chrisdev22.github.io/Crusaders/>

- Developed and designed a mock website by researching user needs for SaaS (Software as a Service) companies and consistently adapting design to be both creative and accessible.
- Led a team of 5 to create a new procedure by integrating an Apple API, which cut our beta testing phase by 12%, resulting in the prototype being finished weeks ahead of our competitors.
- Ranked 1st in creativity out of 4 teams after presenting to the class and was awarded 10 extra points.
- Increased data availability by implementing a Bootstrap framework for responsive design.
- Created buttons, flexboxes, and integrated an Apple API to add fun emojis to the website.

**Lamp Text Editor Project** | Project Manager | Kenzie Academy  
HTML | CSS | JavaScript | <https://chrisdev22.github.io/LampTE/>

**June 2022**

- Pioneered comprehensive text editor that identifies user input to perform text analysis.
- Streamlined research of input data to calculate the number of characters, words, and types of punctuation being used per user.

**Fulfillment Associate Tier 1**

April 2020 – Present

Amazon

Greenwood, IN

- Assistant problem-solver to fix shipment label boxes to sideline them for quality control.
- Improved productivity to 95% during peak season by real-time sortation.

**Customer Service Representative**

February 2019 – April 2020

Lowe's Home Improvement

Indianapolis, IN

- Addressed customer sales orders, processed refunds, and resolving customer complaints.
- Awarded Employee of the Month in May 2019 after receiving a 94% positive rating via customer surveys.
- Trained employees about the effectiveness of quality of engagement for excellent customer experience.

**Customer Service Representative**

June 2018 – February 2019

McDonald's

Bloomington, IN

- Served to succeed in maintaining exceptional communication with customers at the restaurant.
- Trained new hires with approachable conversational etiquette to listen to customer requests efficiently.
